

Dr Kordo Saeed MB ChB MSc FRCPATH FISAC MD

Physician and Consultant Clinical Microbiologist, Lead for bacteriology laboratory University Hospitals Southampton
&
Honorary Senior Lecturer at University of Southampton / UK

Chair of the Rapid Diagnostics and Biomarker Working group of the International Society of Antimicrobial Chemotherapy (ISAC)

Secretary for ISAC's Bone and Joint infection working group.

My interests/ research activities/ what can I offer?

Management (diagnosis and treatment) of infection and sepsis (especially in the intensive care and bone and joint implant related infections).

Research and experience on biomarkers and impact on triaging (reducing load on ED) and AMS/ AMR

Infection prevention in health care setting which ultimately impact on curbing AMR

Why I am here/ What I would like

Connect and collaborate, exchange thoughts and build on R&D and innovation.

Particularly in the field of rapid biomarkers that aid triaging and AMS, rapid diagnostics for AMR, novel therapeutics (antibiotic alternatives).
